

Shipping Policy

1. Domestic Delivery Times

Standard shipping arrives in 3-5 business days for orders within the continental United States. Expedited shipping arrives in 1-2 business days for an additional \$12.99 per order. Same-day delivery is available in select metropolitan areas for orders placed before the 11 AM cutoff.

2. International Delivery Times

Most international destinations receive shipments in 7-14 business days. Customs clearance can add 2 to 5 additional business days. We currently ship to the United States, Germany, France, the United Kingdom, Canada, Australia, and Japan.

3. Free Shipping Threshold

Orders over \$50 USD qualify for free standard shipping within domestic destinations. Enterprise-tier customers receive free expedited shipping on every order regardless of subtotal.

4. Tracking

Every shipment includes a tracking number sent by email at dispatch. Major carriers used are UPS, FedEx, and DHL for international shipments. UPS tracking numbers follow the format 1Z followed by 16 alphanumeric characters; for example, 1Z999AA10123456784 is a sample format only.

5. Lost or Delayed Packages

If your package is more than 7 business days late beyond the estimated delivery window, contact support and we will open a carrier investigation on your behalf. Most investigations resolve within 5 business days.

6. Address Corrections

You may change the shipping address within 2 hours of placing the order. After 2 hours, the warehouse may have already started picking the order and an address change is no longer guaranteed.
