

Product Warranty Terms

1. Coverage Period

All electronic products carry a 1-year limited warranty starting from the delivery date. Accessories and consumables carry a 90-day limited warranty.

2. What is Covered

The warranty covers manufacturing defects, material defects, and workmanship issues that arise during normal documented use of the product.

3. What is Not Covered

The warranty does not cover accidental damage, drops, liquid spills, or unauthorized modifications. Normal wear and tear, including battery degradation after 500 charge cycles, is also excluded. Damage caused by third-party accessories that are not certified for the product voids the warranty for affected components. Tampering with the product seal voids the warranty immediately.

4. Featured Product Warranties

- SKU ABC-12345 (Premium Wireless Headphones, Pro line) ships with the standard 1-year limited warranty. A 2-year warranty extension is available at checkout for \$19.99.
- SKU PROD-0099 (Premium License Bundle) carries a 1-year software warranty covering functional defects from the activation date.

5. How to File a Warranty Claim

Contact support with your order number and a written description of the defect. Support may request photos, a short video, or a remote diagnostic session before issuing an RMA. Most claims are decided within 2 business days.

6. Extended Warranty

3-year extended warranties are available at checkout for most electronics for an additional fee shown at the cart step. Enterprise-tier customers receive a complimentary 3-year extended warranty on every electronic product.

7. Warranty Versus Refund

The warranty is independent of the 30-day refund window. After 30 days, warranty service is the only remedy for defective products.
